# EXPERIENCE INTERNSHIP CANADA

**Experience Internship Canada (EIC) is dedicated to attracting new talents to Canada.**

**We offer students the opportunity to take an internship in this country, where working conditions and the professional environment are particularly attractive.**

**Our partnerships extend to more than twenty professional fields and several prestigious companies.**

We have developed an efficient candidate selection process to meet their expectations as closely as possible, while taking their skills into account.

For us, it is not just about helping students secure an internship in Canada, it's about providing them a unique experience.

Our program accompanies candidates from their application to their stay, including interviews with various companies, to ensure they have the best experience.

Coming to work in Canada can be difficult to organize, legally and administratively. We therefore provide help with the visa applications and administrative requirements. This results in candidates that can concentrate on getting the most out of their internship.

# OUR REMOTE INTERNSHIP PROGRAM

The Covid-19 pandemic has radically **transformed the way we work**. With today's technologies, **it is now possible to work remotely** and achieve the same results. This new flexibility enables us to offer you remote internships.

An internship with a Canadian company will help you **stand out in an increasingly globalized job market**. The Canadian workplace blends North American and European work methodologies, enabling you to **add new skills that will enhance your resume**.

You can now **acquire experience with Canadian companies from the comfort of your own home**. You can work from your own computer, without the official office environment and hours. We work with all types of companies, **from start-ups to major corporations**.

# OUR REMOTE INTERNSHIP PROGRAM

We have developed our remote internship program to **be a real plus on your resume**. It enables you to **develop both hard and soft skills**. A remote internship is easier to organize, as it requires **no administrative procedures for a visa application**. It can then make it easier in the future to apply for a work visa. Remote internships are more flexible in terms of internship periods, which helps reduce internship costs.

All tasks are defined and carried out online (by e-mail, chat, videoconferences, etc.). You are free to work as you wish.

We offer **two packages**: the **simple package** and the **complete package**. The services offered in each of these packages are detailed below. Information on services and rates is available by contacting our team.

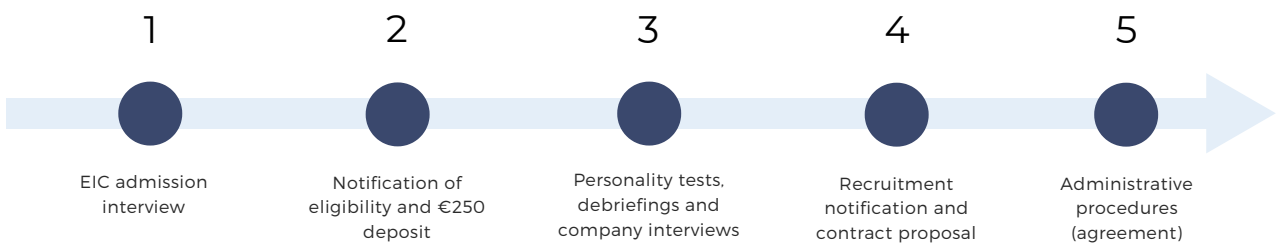

Service	Complete package	Simple package
Internship	✓	✓
MBTI personality test	✓	
Coachings	✓	
Fees	€2,500	€2,000

When you join our program, you benefit from our **placement warranty**. We are committed to finding you an internship in your field, in accordance with the expectations set out in the registration form. Placements are subject to availability, so we cannot guarantee you a specific company. If the proposed internship does not meet your expectations, we offer you a lifetime credit.

# TESTIMONIALS AND STATISTICS

"The remote internship allowed me to get my first foot in the door of a Canadian company. I wasn't sure I could get a visa in time, so I chose to stay in France and work remotely.

I still felt part of the team and was able to get fully involved in the projects. I was able to demonstrate all my qualities and value in supporting the tasks entrusted to me.

My involvement convinced my mentor. So I'll be joining his team next year, this time in Canada, for my end-of-studies internship."

Fanny, marketing intern

Our interns tell their Canadian experiences and adventures on our YouTube channel.

Interviews to narrate their internship, Which of us? to talk about their friendships made in Canada and videos to tell us about their Canadian life, they unveil all the secrets of their stay in the Land of Maple Syrup.

# TESTIMONIALS AND STATISTICS

When it comes to professional fulfillment, statistics show that young graduates think more about themselves and their careers; they try to align their work with their interests, values and strengths. An internship is an opportunity to test one's career direction and to have realistic expectations of a position, field and job prospects.

**× 2**

More chance of getting a job related to your studies by doing an internship.

**× 2**

More chance of getting a job immediately after your studies.

Four out of five graduates find it important to be fulfilled in their work. Without an internship, less than half of all graduates manage to find a job in which they feel fulfilled.

# F.A.Q.

## **11.CAN I CONSULT A LIST OF EMPLOYERS OR CHOOSE A SPECIFIC COMPANY TO DO MY INTERNSHIP IN?**

We work with a lot of companies in Canada. We do not have a fixed list of partner companies. The internships we offer depend on the availability of the jobs. We cannot then guarantee a specific company.

## **12.WHAT HAPPENS IF I DO NOT GET THE INTERNSHIP THAT I WISH FOR?**

We are proud of the twinnings between our participants and our partner companies. We guarantee you an internship in your predilection field. If we do not succeed, you can assert the placement warranty or the lifetime credit.

## **13.WHAT ARE THE WORKING HOURS?**

In Canada, the working week is 40 hours long. Most internships take place between 9 a.m. and 5 p.m.
